PROFESSIONAL EXPERIENCE

MORTGAGE LENDERS NETWORK USA, INC., MIDDLETOWN, CT

2004 - 2007

Team Lead Systems Engineer

Team Lead Systems Engineer core focus on Citrix technology. Responsible for stabilizing a 50+ Citrix XPe Farm hosting 2000 concurrent connections prior to undertaking and implementing Citrix Presentation Server 4. The Citrix PS4 project utilizes Presentation Server 4 x64 and x86 on both HP Blades and DL series servers. Backend infrastructure leverages VMware ESX to host Web Interface and Advanced Access Control front ended by Citrix Access Gateway Advanced.

Key Contributions:

- Selected internal and external staff to form Citrix Team.
- Stabilized Citrix XPe environment comprising more than 50 servers.
- Primary Engineer responsible for the design and implementation of Citrix Presentation Server 4.
- Utilized AD security in concert with GPOs to secure Citrix and the enterprise network at large.
- Provide Senior Engineering expertise to the Manager of Systems Engineering as requested.

EXECUTIVE COMPUTER SYSTEMS, INC., NEWINGTON, CT

2002 – 2004

Network Engineer

Principal engineering assignment Cornerstone Real Estate Advisers, Inc. Initially brought onboard to facilitate the MRI/Citrix rollout to 300+ business partners. Retained to facilitate further technical challenges facing Cornerstone.

Key Contributions:

- Designed and implemented a solution for external business partners utilizing Citrix MetaFrame Xpe
- Migrated company from Novel 3.2 to Windows 2000; transferred all users, data, rights, logon scripts.
